DevOps Lab - L3

Lab Assignment No: 7	
Name of Student	Aryan Sheladia
PRN	23070122202
Batch	2023 - 2027
Class	CSE – B1
Academic Year & Semester	2026 - 2027, 7th Semester
Title of Assignment	Pipeline with Parameters
Implementation & Theory	 Open pipeline for editing — Navigated to the existing Declarative-Pipeline-Demo job and opened its configuration to add parameterization to the Declarative Pipeline.

Define your Pipeline using Groovy directly or pull it from source control.

```
19      echo 'Git checkout completed.'
20    }
21  }
22
23  stage('Greeting') {
24    steps {
25      echo "Hello ${params.GREETING_NAME}"
26    }
27  }
28
29  stage('Run Example Command') {
30    steps {
```

☒ Use Groovy Sandbox ?

Add parameter and Greeting stage — Updated the Declarative Pipeline with a string parameter GREETING_NAME having a default value of World. Added a Greeting stage that dynamically displays Hello \${params.GREETING_NAME} using the supplied parameter value.

Save configuration — Saved the updated parameterized pipeline and verified that Jenkins recognized the GREETING_NAME parameter by

changing the build option from **Build Now** to **Build with Parameters**.

✓ Parameters

GREETING_NAME

The name to use in the greeting

Aryan

Build with custom parameter — Selected **Build with Parameters**, entered Aryan as the value for GREETING_NAME, and triggered the parameterized pipeline build.

Verify parameterized build — Executed the pipeline using the custom GREETING_NAME value Aryan. The Console Output displayed Hello Aryan, confirming that the parameter was correctly passed at runtime, while the remaining pipeline stages completed successfully with Finished: SUCCESS.
