Title of Assignment	Jira Project & Issue Tracking
Implementation & Theory	 Successfully signed in to Jira Cloud and accessed the dashboard. The dashboard provides a centralized workspace to manage projects, monitor issues, and collaborate with team members efficiently. 

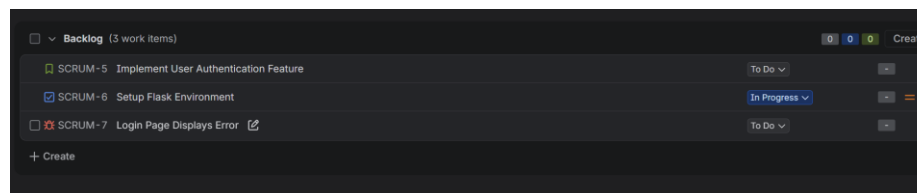

Three Issues Created

Create:

- Story – Implement User Authentication Feature
- Task – Setup Flask Environment
- Bug – Login Page Displays Error

Added three different issue types to the backlog representing a Story, Task, and Bug. This demonstrates how Jira categorizes work items for effective Agile project management.

Move Setup Flask Environment to In Progress.

Updated the issue status from **To Do** to **In Progress** using the Scrum board. This demonstrates Jira's workflow management and issue lifecycle tracking capabilities.
